PROFESSIONAL SUMMARY

Bachelor of Engineering graduate with hands-on experience building full-stack and backend applications using JavaScript, TypeScript, Node.js, Express.js, MySQL, MongoDB, and REST APIs. Experienced in authentication, database operations, real-time communication, API integration, debugging, testing, and AWS deployment. Built appointment booking, real-time chat, and expense management applications with focus on reliable backend functionality and practical problem solving.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL, HTML, CSS
Backend: Node.js, Express.js, REST APIs, WebSockets, Socket.IO
Databases: MySQL, MongoDB, RDBMS, SQL Queries
Cloud & Deployment: AWS EC2, AWS S3, PM2, Nginx, Reverse Proxy, Deployment
Security: JWT, bcrypt, Authentication, API Validation, Error Handling
Tools: Git, GitHub, VS Code, Postman, npm

EXPERIENCE

Android App Development Intern (GenAI) Feb 2026 – May 2026
MindMatrix, Remote

- Contributed to Android application development and GenAI-related application tasks, working on feature implementation, troubleshooting, and application testing.
- Analyzed application issues, reproduced bugs, applied fixes, and documented requirements and resolutions while collaborating with team members.

PROJECTS

Salon Booking System GitHub Live

- Developed a full-stack salon booking system using JavaScript, Node.js, Express.js, MySQL, HTML, and CSS.
- Implemented customer authentication, service and staff management, appointment booking, availability checking, reviews, and role-based access.
- Designed scheduling logic using service duration and booking-time overlap checks to prevent conflicting appointments.
- Integrated Razorpay payment verification, confirmation emails, Node Cron reminders, and automated schedule clearing.
- Deployed the application on AWS EC2 using PM2 and Nginx for process management and reverse proxy configuration.

Real-Time Group Chat Application GitHub Live

- Developed a real-time chat application using JavaScript, Node.js, Express.js, Socket.IO, HTML, and CSS.
- Implemented JWT authentication, bcrypt password hashing, multiple chat rooms, user management, and real-time messaging using WebSockets.
- Integrated Gemini AI-powered chat suggestions and AWS S3 file storage using pre-signed URLs.
- Deployed the backend on AWS EC2 using PM2 and Nginx and tested real-time client-server communication.

Expense Tracker Web Application GitHub Live

- Developed a full-stack expense management application using JavaScript, Node.js, Express.js, MySQL, HTML, and CSS.
- Implemented authentication, protected REST APIs, expense CRUD operations, category-based tracking, validation, and error handling.
- Integrated Cashfree payment functionality and password-reset workflows using email-based reset links.
- Tested REST APIs with Postman and debugged application, authentication, and database issues.

EDUCATION

Bheemanna Khandre Institute of Technology, Bhalki Karnataka, India
Bachelor of Engineering – ECE Dec 2022 – June 2026
